I am married to Barbara J. Craven and we have two adult children, Todd (28) and Tammy (24). From 1963-1980, I was a corporate accountant and since 1981 I have been an insurance agent with Parker & Associates, Inc. My most memorable Linfield experiences have come from the fact that we live near campus and have season tickets for basketball and football. The continued success of the College in athletics, academics and the careers of its graduates are a tremendous source of satisfaction and enjoyment. We have taken great satisfaction in watching Linfield and its people grow in so many ways. Since graduating, serving in leadership positions with the Salem Association of Life Underwriters, Oregon Association of Life Underwriters and the National Association of Life Underwriters has given me the opportunity to travel extensively within Oregon as well as to many major cities nationwide. In doing so, I have had the opportunity to meet and know many fine people.

I am married to James Harmon and we have two adult children, Steve(24) and Cathie (21). I work as an administrator/teacher in the pathology laboratory at Madigan Army Medical Center. My Linfield memories include: falling flat on my face after missing the top step up to the stage where I was to read minutes at the year's first student body meeting; scaling the Riley Hall roof to attach a huge weather balloon with my campaign logo; sniffing a contact lens up my nose and becoming the only student to "wear three contacts at once."; decorating Sigma floats; football games; the beauty of the campus in every season; and wonderful classmates. Being married to a career Army Engineer Officer, I have trained for five different careers, each one interrupted by an Army re-assignment move: I taught high school math and science in Turkey; was an antique dealer in Germany; a flood forecaster in Oklahama; a translator and tour guide in Germany and Jordan; and sold ad space in the Yellow Pages to merchants in the Middle East. Living half my adult life overseas allowed me to become fluent in German and Arabic and to travel in some truly unusual areas. For my years of work with soldiers' families and Army communities around the world, I was awarded "The U.S. Army Commander's Award for Exceptional civilian Service" medal.

I am married to Frederick Jacobs and we have three children; Rick (27), Angela (21) and Janette (15). I work in the Sacramento City School District as an elementary teacher. After graduation from Linfield, I did post graduate study at the University of Nevada earning a B.S. in Education and at California State University/Sacramento earning a B.A. in psychology, plus psychology credits toward an M.A. I remember in my Freshman year at Linfield, eight of us were assigned to the new (then) "Glass-House Apts", located beyond the field and track. We lived below Dr. Tom Meicho and his wife, Jean, and I'm sure we weren't too quiet. This arrangement for dorms was necessary due to overcrowding that year. Our escapades of 'running the track' very late, roommates being out too late, cooking (and burning) unusual foods late at night, etc. are among my humerous memories of Linfield living. We even used to practice for cheerleading and song team in the apartments. I'm sure the Meicho's were glad we moved on!

I have two adult children, Kathryn (Linfield '91) and Daryl. I am widowed from Donald E. Morris. I did post-graduate study at OSU receiving an M.S in 1978. I am an Associate Professor in the School of Business at University of Alaska, Anchorage, AK. While at Linfield, I was privileged to serve as secretary for two years to Dr. G. Frazee, Dr. W. Dolan, and Dr. J. Johanssen - three outstanding men. With Chaplain Frazee, I enjoyed working with various speakers for chapel and other events and working with student Christian groups. Dr. Dolan and his family invited me to stay in their home during spring break so I could continue with student teaching and gave me encouragement with my early teaching efforts. My office in Melrose offered a quiet place to study in the evenings and enjoy other students' practicing on the organ. I will be retiring this year after 20 years with the University of Alaska. My work has concentrated on training women of all ages and all economic levels for better employment opportunities. As a widow and single parent for most of that time, I have been particularly proud of those who have risen out of welfare and those who have learned to make it on their own after experiencing life-shattering experiences.
